

QUALITY POLICY

At WDE Consulting Limited, we continually strive for excellence. Our key aim wherever possible is to exceed our client's expectations in every area of our geo-environmental consultancy business.

Top management are to ensure that good business management is kept at the top of their agenda by monitoring the performance of the business within the framework of our BMS. This Quality Policy is a live document and is reviewed at least once per year by the Top Management.

Top Management are committed to developing a customer focussed approach to improvements and adopt a **risk based thinking** approach for continual improvement and prevention. We are committed to satisfying applicable statutory and legal requirements. Our staff are employed based on their professional suitability and are trained and supervised to ensure we meet our key business objectives.

As part of our commitment to continual improvement, Top Management will set target quality objectives for each calendar year and monitor performance against these objectives.
